

NEWLEADERS

As part of our commitment to provide NewLeaders with opportunities to learn about relevant healthcare topics, meet NewYork-Presbyterian's top physicians and mingle with likeminded young New Yorkers, the 2008 NewLeaders Education Series offers the following evening event as part of a series hosted by our members:

Stem Cell 101

- *What are stem cells and why are they important?*
- *The politics and ethics surrounding stem cell research are so complex. What does it all mean?*
- *Reality vs. Hype of stem cell research – what does the future hold?*
- *I work on Wall Street - why do I need to know about stem cell research and therapies?*

Please bring your questions, thoughts and concerns, and join us for a relaxed evening of informative chatting with [John Boockvar, M.D.](#) one of NYP's finest neurosurgeons and Director of the Cornell Neurosurgery Laboratory for Translational Stem Cell Research.

Tuesday, February 26, 2008
6:30 p.m. to 8:30 p.m.
555 Park Avenue
Hosted by Lauren Reiss Frank

Free for NewLeaders members
\$250 for non-members (includes one year membership)
More information on our website, www.newleadersnyp.org.

Beer and wine will be flowing and hors d'oeuvres will be served; however, space is limited, so please [RSVP](#) to Michelle Cruz (212-342-1502) at your earliest convenience.
